Prepare your dog to take the Therapy Dog International Certification test. During the class we will simulate the test environment to prepare the dog (and you) for the exercises that you will encounter during the test.

For the TDI Therapy Dog Test, dogs must be:

- One year or older
- Will be tested on a buckle collar, or body harness (not no pull)
- Have a sound & stable temperament
- Show proof of current required vaccinations

(TDI also requires your veterinarian to complete a form that lists your animal's vaccination or titer & test history. In addition, your veterinarian must sign a statement indicating that the dog is of sound & stable temperament & in good health)

For more information on *Therapy Dogs International*, visit their website at: www.tdi-dog.org

*Testing date to be announced
(Additional \$10 fee for test, paid to TDI)*

Ask an instructor if you & your dog are ready for this fulfilling challenge!
